# K-UNO HYDRO PLUS

K-Uno Hydro Plus, unisce la nuova tecnologia Hydro Plus, che protegge la doga dai ristagni d’acqua per 24 ore, al grande formato (2052x248x10mm) e alla superficie dotata di sincroporo, che conferisce un effetto ultra realistico al decorativo legno. La microbisellatura, protetta con componente Acquastop che la rende idro protetta, è presente sui 4 lati. K-Uno Hydro è dotato anche del nuovo incastro 5G Dry che unisce a facilità e rapidità di posa la tenuta stagna del incastro.

K-Uno Hydro Plus, combines the new Hydro Plus technology, which protects the plank from water stagnation for 24 hours, with the large format (2052x248x10mm) and the surface equipped with synchropore, which gives an ultra-realistic effect to the decorative wood. Micro-beveling, protected with Acquastop component that makes it hydro-protected, is present on all 4 sides. K-Uno Hydro also features the new 5G Dry joint that combines ease and speed of installation with watertightness of the joint.

Dimensioni / Size:

2052 x 248 x 10 mm

## Caratteristiche Tecniche / Technical Features:

|                                                           |                                                                                       |                                                                                       |

The image shows a close-up of a wood-grain laminate flooring. The texture is highly detailed, mimicking natural wood with various grain patterns, including straight, wavy, and knotted. The color palette is a range of browns, from light tan and beige to deep, dark chocolate and near-black tones, creating a realistic and organic appearance. The planks are oriented vertically, and the grain runs parallel to them.
